Part -A Reading Test

Marks-50

[Read the following passage carefully and answer the questions that follow.]

Pritilata Waddedar was born in Chittagong on 5 May 1911. She was a meritorious student at Dr Khastagir Government Girls' School in Chittagong and Eden College, Dhaka. She graduated in philosophy with distinction from Bethune College in Kolkata. In her college days, Pritilata was an activist in the anti-British movement. All through her life, she dreamt of two things: a society without gender discrimination, and her motherland free from British colonial rule.

so she decided to fight against the British rule. Soon after, Pritilata became the head teacher of Nandankanon Aparna Charan School in Chittagong. Gradually she involved herself in Surja Sen's armed resistance movement. Surja Sen was a famous anti-British movement organizer and revolutionary activist in Chittagong area at that time. In 1932, Surja Sen planned an attack on Pahartali European Club. The club was well-known for its notorious sign at its entrance: Dogs and Indians not allowed. Surja Sen assigned Pritilata to lead a team of 10-12 men to attack the Club. The raid was successful but Pritilata, dressed as a man, failed to get out of the Club. She committed suicide by taking potassium cyanide to avoid arrest. She proved that women can work like men. She also proved that women too needed to be prepared to sacrifice their lives for freedom from the British colonial rule. Her dream finally came true. the British rule came to an end in 1947 though she couldn't see it during her lifetime.

1. Choose the best answer from the alternatives.

1×10=10

Read the following text fill in each gap with a suitable word based on the information of the text:

Fish population is in serious danger from global warming. Climate change is increasing the water temperature in rivers, lakes and seas. This means there is less food and oxygen available for fish. It also means the fish may not grow fully and may have fewer offsprings. Some fishes will become extinct if temperatures rise even by one or two degrees celsius.

Climate change increases the pressure on fish population. Fishes are one of the world's most valuable biological assets. Forty percent of people in the world eat fish as their main source of protein. If we fail to reduce greenhouse gas emissions, we will increase the pressure on fish. As a result ,people who depend on fish will suffer from hunger and poverty.

3. Fill in the blanks with suitable words based on the information of the passage. 1×5=5

Climate change is a global phenomenon. It increases the (a) \_\_\_ on fish population. That is why, fish population is in serious danger. (b) \_\_\_ change has increased the water (c) \_\_\_ Many people of the world depend on fish only for (d) \_\_\_. It is high time we reduced greenhouse (e) \_\_\_ emissions.
